

TRIOLET

The Family Game of Scrabble® with Numbers

KEY SELLING POINTS

- Simple to learn
- Great for families
- Helps enhance maths

ABOUT THE GAME

Triolet is a brilliant board game from France. Anyone who can count can play - the goal is to make 3 tiles in a row **add up to 15!**

For all its apparent simplicity, the game calls for complex tactics and cunning. Adding to the fun, one game takes just the right amount of time for you to enjoy a bottle of wine with your opponent.

How To Play: It's a little like Scrabble® with numbers - as you draw tiles from a bag and then take it in turns playing them on the board. Place 1, 2 or 3 tiles in a line (horizontal or vertical), making sure you touch one or more of the existing tiles. You score points for each of the groups of 2 or 3 tiles you create, including bonuses for '**Trios**' and any premium squares.

The player with the highest cumulative score, after all 81 tiles have been played, is the winner!

CONTENTS

- Playing board
- 81 tiles
- 2 Joker tiles
- 4 Tile racks
- 1 Cloth Bag
- Rules of play - with scoring examples

Full English rules & instructions included

Designed by André Perriolat

Published by DJ Games

RRP £22.95
